

For the benefit of those members who did not attend the Annual Meeting, a list of the Officers elected for the coming season, will be found posted on the Notice Board. If the same members are sufficiently interested to want a copy of the Club's Annual Report and Balance Sheet, same can be had upon application to the Secretary, H. de la Rue.

THEY SAY

That we are to congratulate Stevo, the last instalment has been paid on the clock, and he has also bought the ring.

The same congrats go to Fred Miller who has also been chasing diamonds. The club wishes both members and their ladies the best. That a certain member has been caught patronizing the Mitre after hours.

That Ray Elliott has been giving the snozzle canoe the once over lately, and that the same canoe objected and bucked him overboard.

That Ron has to pitch a pretty good tale nowadays or nights, else how is it that he gets called up on the phone at meetings?

That now that sanctions are over with Italy it is possible that Fiat cars may run better and not have to be towed home from the club.

Who spilt Jimmy McKay out of the car on the way home from South Melbourne Smoko, was the car at fault or ?

Members are advised to watch the notice board, as the locks on the No. 2 and other doors, are to be altered in the very near future, and it will be necessary for you to see A. Rouse and exchange your Key, and also pay up your subs to him for the new season.

Don't forget the NEXT DANCE.

And the Smoke Social.

Dear Fellow Member,

The Annual Meeting of both the Rowing and Canoe Clubs is over, and Officers have been elected for the forthcoming 1936-37 season, and may it be a bumper one.

The new committees appeal to every member to give the utmost of his support to all the functions of the clubs. If you are interested in rowing or canoeing, let's see you down at the clubhouse each week-end and gaining some knowledge of the sport. Then don't forget the social side of the club. From time to time social affairs are held and every member should be present. The subscriptions that members pay to the club, do not keep the club running, and it is only from the social functions that running expenses can be met. If members do not support these functions, the only alternative will be to increase the subs so that expenditure can be balanced. Our Junior members in particular should note how low are their rates, and where they are the owners of a canoe, their storage is not to be had anywhere so low. The Junior storage membership will be the first to receive consideration of a rise, if these members do not give greater support to social functions.

More new members are wanted in the club, and you are asked to do your best to interest your friends in this club, and try and join up at least one new member during the new season.

Don't forget that next Saturday, 8th inst is the Annual Smoke Social and Presentation of Trophies, it will also be a Re-union of past members. Already a great number have promised to be present, and it is up to us to be there in full force to see that they have a good time. We want every member to be present on this occasion, and as the price is only 3/6 you just can't miss it.

The Social committee are holding a huge dance at the Clubhouse on Saturday night, 5th September. This is to be one of the biggest and best dances ever attempted by the Club, and it is essential that every member shall be present, and not only that, but that he sees it that he brings along another couple with him. You are guaranteed that you will have one of the best nights that you have ever had. The success of this function will be a deciding factor in whether the subscriptions will be raised this season. This matter is in the hands of each member, so let's see that the social affairs get all the support that we can possibly give to them. You are given a month's notice of this dance, so book the date NOW with yourself and your friends and be there.

A re-arrangement of canoe storage racks has been made and you are advised to see Arthur Rouse at the clubhouse about your rack if it is not suitable, but remember, that preference of racks will be made to those members who are financial for the 1936-37 season. Your subs became due and payable on 1st July, and if you have not yet paid them, lose no time, but see A. Rouse at the club, or the Treasurer, N. Oke and have the matter adjusted at once.

Les Stevens is Commodore, and Ralph Andrew is Vice Commodore for the new season, and they both want to see members down ready for training each week-end, when they will both be ready to take members out and give them the necessary training. Stevo is laying in a stock of Boverill so that members will be built up strong enough to be able to wield a paddle in all racing this season. Remember that selection for the Championship four to race at Henley in November will have to be made soon, so that you will need to get busy training right away. The Club wants to see that Henley Cup come to the Club this season, and we also want to see the Premiership Pennant come to Fairfield too. Its up to every canoeist to train and help the club.
